

### Applying as a Transfer Applicant to the Nursing Science Major at UCI

The following prerequisites must be completed with a grade of C or higher if taken at UCI, or a grade of B or higher if taken outside of UCI. All prerequisite courses must be complete within the last 5 years.

| Prerequisite                                            | Course Title at UCI                                                                                                                                                                         |
|---------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General Chemistry Series<br>(2 semesters or 3 quarters) | Chemistry 1A, Chemistry 1B, AND Chemistry 1C                                                                                                                                                |
| Organic Chemistry                                       | Chemistry 51A                                                                                                                                                                               |
| Basic Statistics                                        | <u>One</u> course from the following: <ul style="list-style-type: none"> <li>• Statistics 7, 8</li> <li>• Psychology 10A</li> <li>• Sociology 10A</li> <li>• Social Sciences 10A</li> </ul> |
| Genetics                                                | Biological Sciences 97                                                                                                                                                                      |
| Biochemistry                                            | Biological Sciences 98                                                                                                                                                                      |
| Microbiology (Lecture)                                  | Biological Sciences M122                                                                                                                                                                    |
| Microbiology (Lab)                                      | Biological Sciences M118L                                                                                                                                                                   |
| Human Physiology (Lecture)                              | Biological Sciences E109                                                                                                                                                                    |
| Human Physiology (Lab)                                  | Biological Sciences E112L                                                                                                                                                                   |
| Human Anatomy (Lecture & Lab)                           | Biological Sciences D170                                                                                                                                                                    |
| Intro to Psychology                                     | <u>One</u> course from the following: <ul style="list-style-type: none"> <li>• Psychology 7A, 9A, 9B, 9C, 78A**</li> <li>• Psychological Science 9, 11A, 11B, 11C</li> </ul>                |
| Intro to Sociology                                      | <u>One</u> course from the following: <ul style="list-style-type: none"> <li>• Sociology 1, 2, 3, 31**, 44, 62</li> <li>• Social Sciences 1A</li> <li>• Anthropology 2A, 2D, 41A</li> </ul> |
| Philosophy                                              | Philosophy 4 OR Philosophy 5                                                                                                                                                                |
| Public Health                                           | Public Health 1                                                                                                                                                                             |

\*\*Cross-listed courses at UCI; may only count towards Psychology or Sociology/Anthropology requirement, not both.

**NOTE:** You can take a maximum of 3 prerequisite courses in the Summer prior to Fall start, after admission. If admitted, the courses will need to be completed and passed with a B or better (if taken at a community college) or a C or better (if taken at UCI) in order to stay in the major.
